Raft Up!

Next Meeting is scheduled for September 22nd! Plan to meet at the Breeze Inn Lounge at noon. There, boat owners and boatless members will get together for a quick meet and floating pot luck. Sailing time will be established at our noon gathering so, see ya then...oh, remember to fly our KFJC Burgees.

KFJC 20th Anniversary Float Sailed 4th of July!

We did ourselves proud on the 4th of July. Thanks to the donation of dory from Don Withrow; truck, trailer and a place to store and decorate the float from David Leech; the combined efforts of Paul Ruppel, David and Commodore Liz Leech and Sue Kaanta, the decorating was a snap. Parade day, we peopled the float with our very own musicians - Joe & Lona D'Entrone! David drove along with friend Mary, Paul Ruppel with safety-dog Jona, Anna Young, Carrie McCann, Joyce Carpenter along with her daughters Emily and Katie added momentum by rowing the boat. We looked great! Pictures on our Web-Site.

Harbor News

All the new slips off the south harbor breakwater M, N, O, & P now have power. The new Pump-A-Head is operational also, but here's the deal. The tokens are different from the old Pump-A-Head in the North Harbor. So, yes the tokens are free, you still need to pick them up at the Harbormaster's Office, but if you don't know which one you plan to use, better pick up tokens for both,

If you have driven out on the south harbor addition, you will find parking for cars and trucks, shiny new bathrooms in operation, a dumpster and an used oil dump station.

Next focus for this winter will be the replanking and repair of the City and T-docks, rewiring the electricity on both and the construction of a new 50 ton lift dock.

June Meeting Highlights

Commodore Liz called the meeting to order and immediately caught our attention with a generous round of drinks for her first action as Commodore and a Club first (the Commodore buying).

Pilot Rock and Buoy 76 still not working as promised by the Coast Guard, plus the Cape Cleare buoy, out of operation since January, so Secretary Sue wrote a second letter to

the National Data Buoy Center. Again, I received a call. Mike Mugett said it's going to be a month or more to repair Pilot Rock, the Coast Guard has re-prioritized the original repair schedule to the Aleutians and Bering Sea.

We Have a Winner!

Dakota Wills from Anchorage won the \$100 KFYC prize money for the largest Silver won by the member of any Yacht Club with a fish weighing in at 13.65oz.

This breaks the longest standing record held by our own M/V Florette C.

Ponder This;

This is a new section that brings up ideas that seem to rise and fall over the course of our four meetings a year. Our next meeting, Sept. 22nd, is fast approaching, here's something we have discussed before and you may want to think about before we meet.

For example: Do we want to have on our web-site a classified section for members only? Would we only list boat related items or anything? We have had a suggestion for the name of the classified section, "Loot & Booty". Can you guess which punster thought of that name?

Welcome New & Renewed KFYC Members -

Kai Clancy - S/V Patronilla
Alicia & Walter Corrigan- S/V Rikki T
Laura Thorpe and
Martin Cary - M/V Paula Jo
Capt, Jeffrey Moore - S/V Osprey
Mark Pope
Anna Young

KFYC Ripples -

Ripples is a space for changes, reasons to celebrate, whatever you want to share. For instance;

New member Kai Clancy bought S/V Patronilla and is sailing south to restore her. Capt, Pat Nolan has purchased the S/V Arcos and is waiting on parts to splash her.
